As per the Guinness World Records City Montessori School is the world's largest school with over 32,000 students on roll in a single city and it is the only school to have received the UNESCO prize for Peace Education, which was awarded to it in the year 2002. The website of Guinness World Records recognizes CMS as the only school to organize and host 24 international events for children in which a large number of children participate from various countries of the world.

CMS is aware that the present world situation is grim owing to the stockpile of over 36,000 nuclear, chemical and biological weapons capable of destroying the world several times over and also due to the problems of international terrorism, drug trafficking, conflicts between nations, global warming and ecological imbalance, alarming growth of deserts and desertification world over, melting of the polar ice caps and the Siberian peat bogs threatening the future of world's children to no end. Under such danger of total destruction by nuclear holocaust or by global warming and environmental destruction, the future of the world's children is not safe and CMS believes that the present generation is not doing enough to save them from such catastrophe.

CMS believes that in order to successfully meet the challenges of international terrorism, threat of nuclear wars and other environmental concerns, unprecedented levels of international co-operation and global efforts are needed. These are the global problems that can not be tackled with by any national government. Also, it has to be realized that the vehicle of war cannot take humanity very far. If, ever there is to be effective international co-operation, such as was hoped for by the League of Nations and the United Nations, then there has to be a very widespread effort at inculcating globalism in children all over the world and shaping their mindset towards globalism. Only then will be a true generation

of world citizens. But for this to happen, schools will have to cultivate tolerance and feelings of co-existence in children by teaching them to love the Creator and all His creations. Wars begin in the minds of men and it is in the minds of men where the defences of peace have to be constructed. This can best be done in schools when children are young and in impressionable stage.

True education releases capacities, develops analytical abilities, confidence in oneself, will power and goal setting competencies and instills the vision that enables one to become a self motivated agent of social change, serving the best interests of the community. At a certain moment in history, education must also act as a powerful instrument for profound social transformation. And CMS holds a firm belief that such a moment has now arrived.

CMS has thus taken upon itself the responsibility of imparting meaningful education not only to the children who study in City Montessori Schools but to the children all over the world because it believes that the meaningful education aimed at building a united and peaceful world is the only way to redeem the future of 2 billion children of the world and save humankind from the danger of a nuclear war.

The twenty four international events organized by CMS are a part of the CMS curriculum aimed at spreading the ideas of world unity. These children's congresses offer one to one interactions of children from all over the world. The central theme of these interactions in various events is always peace. The primary purpose of the events is to create a new mindset and feelings of love and understanding towards all the peoples of the world, to recognize our mutuality on planet earth and to work for the benefit of entire humankind. These festivals, conferences and seminars help in developing in children of various countries of the world an awareness of being part of the larger human family and becoming aware

of humanity's common cultural heritage.

**Commonwealth Youth Conference:** This is the event which heralds the beginning of the CMS calendar year. The youth conference and creative writing and poster competition for students of junior and senior classes aim at promoting the Commonwealth values of unity, co-operation and friendship for world peace. The event is organized by CMS Gomti Nagar Branch.

**International Conference of Pre-Primary Principals** organized by CMS Quality Assurance and Inspection Department, is a unique event highlighting the importance of Pre-Primary education which lays the foundation of the future education of the child. It is an opportunity for the teachers and principals of pre-primary schools around the world to evolve effective methodology and suggest publication of such books and material that would fascinate tiny tots to become inquisitive about knowledge of objects and other things prescribed in the curriculum.

**International Students' Science Fair: ISSF,** organized by CMS Mahanagar (II) Branch comprises poster presentations, oral presentation and science quiz, all aimed at bringing together young scientific talent from all over the world and motivating the students to use their knowledge for benefit of humanity besides inculcating a scientific temper among the youth and encouraging fruitful exchange of thoughts and ideas.

**COFAS International,** the festival of computers and cyberspace organized by CMS Station Road Branch for students of classes IX to XI is one of the oldest CMS events. Thousands of students have so far participated in various competitions held during this festival and exchanged their ideas on latest information on science and technology apart from testing their scientific acumen and skills.

**Educational Technology Development Programme, ETDP** organized by CMS Kanpur Road Branch for principals, educationists and scholars from schools,

colleges as well as the educational societies of different countries of the world is aimed at building Total Quality Person, who will bring about quality revolution in education. Various student problems like punctuality, homework, tuitions etc are discussed through case studies and paper presentations.

**International Literary English Festival, Odyssey,** is organized by CMS Mahanagar (I) Branch for students of classes IX to XII. The festival is aimed at inculcating a literary taste in the children and stimulating them to enhance their oratory skills and decision making capabilities and develop a global view point keeping in mind the demands of the present age where the world has been converted into a global village, where everything depends on proper communication.

**Global TIE,** the International Conference on Global Trends and Innovations in Education is organized by CMS Rajajipuram Branch. At this conference, principals, administrators, teachers and experts from around the globe discuss the latest trends in education and evolve new strategies for making them more useful and meaningful for students who have to face the challenges of the new millennium.

**International Innovation Day, IID,** is organized by CMS Jopling Road Branch celebrating the birthday of His Excellency, *continued on page 8*

**Workshop on Community Radio held**

**Dr A W Khan from UNESCO, Paris, Prof. Asha Kanwar and Mr V Kurian, HOD, CMS Multimedia on the dias**

**Ms Zohra Chatterji, IAS, Joint Secretary, Ministry of Communications and IT, Govt. of India addressing the gathering**

Commonwealth Educational Media Centre for Asia, CEMCA, Ministry of Information and Broadcasting, Govt. of India and CMS jointly hosted a 3-day CEMCA workshop on Community Radio from 28 to 30 November 2007 at CMS Gomti Nagar auditorium. The workshop aimed at popularizing community radio in educational institutions. Well-known experts delivered talks at the workshop to apprise educationists about benefits of community radio broadcasting.

Dr R. Sridhar, Director, CEMCA; Mr Vipin Sharma, Mr Sajjan Venniyoor, Ms Zohra Chatterjee, Mr Venu Arora and Dr A. W. Khan of UNESCO spoke on "How to include Community Radio in our daily life". Besides these experts a number of other special invitees including information and broadcasting personnel also addressed the workshop.

Addressing the audience on this occasion, **Prof. A. W. Khan, Assitt. Director General, UNESCO, Paris** said that in the changing scenario Community Radio can help the rural folk to gather information about latest developments in medicine, agriculture and industry. The village people can discuss their problems and find their own solutions. Prof. Khan said that the Govt. of India has fixed a target of setting up 4000 Community Radio Centres by 2008. UNESCO and UNDP would like to collaborate with civil societies and further carry on the programme of Community Radio Awareness.

**Prof. Asha Kanwar, Vice-President of Commonwealth of Learning, Vancouver, Canada,** said that community

radio holds special importance in India's Panchayati Raj System. Through this, farmers get knowledge of good seeds and latest agricultural techniques. It also helps them get good price for their produce. Farmers can significantly contribute to the national economy. The world has emerged as a global village today. All religions and castes are being tied with a cord of unity. Community radio can play an important role in speeding up the process. It has facilities like multimedia which make it an effective instrument of positive social change. **Ms Zohra Chatterji, IAS, Joint Secretary, Ministry of Communications and Information Technology, Govt. of India,** said that the educational programmes aired through community radio can provide students motivation as well as knowledge. She cited the example of Andhra Pradesh where Dalit women are running the centre from where they transmit information on latest agricultural techniques on the Community Radio. She said that Karnataka, Uttarakhand and Gujrat centres have also succeeded in using this medium for imparting education.

Expressing his views on this occasion, **Head of CMS Multimedia Department, Mr V Kurian** said that by using community radio, we can strengthen not just the education of children and youth but also of adults. This medium can help us in taking the educational revolution to women and older generation and in exchanging latest knowledge amongst places in various corners of the world. **Founder of CMS, Mr Jagdish Gandhi** also addressed the audience.

**Annual Sports Day**

**Principal, Mrs. Kalpana Tripathi, leading the march**

The Annual Sports Day of CMS, Rajendra Nagar(II) was held with great pomp and show at Railway Stadium, Charbagh on 22 November. Chief Guest, Hon'ble Shri Ram Achal Rajbhar, Transport Minister, UP, inaugurated the Sports Day by unfurling the Sports Flag. There was tough competition among the students to participate in various items. Parents and guardians encouraged their wards by cheering loudly and clapping heartily at their performance. The winners were awarded shield, medals and certificates.

**Annual Function**

**Students enacting a scene from Ramayana at the function**

Parents were thrilled to see their talented wards create magic with their performance at the Annual Function organized by CMS, Gomti Nagar at the branch auditorium on 17 and 18 November. The entire auditorium reverberated with loud clapping as these talented students set the tune with their performances. Artistic presentation of cultural items by beautifully attired children enthralled the audience. The parents also eagerly participated eagerly in this programme boosting the morale of the students.

**Bolt Awards**

Two outstanding teachers of CMS, Station Road namely Mr Dinesh Garg and Mr Jayant Malviya got honoured with 'Bolt Awards' by Air India for achieving excellence in teaching. A high level panel of judges constituted by Air India examined entries of teachers of the whole country to decide each case on merits following which Mr Dinesh Garg and Mr Jayant Malviya were awarded the bolt awards. Judges of High Courts, Vice chancellors, officers from the civil services and outstanding achievers in various walks of life were members of the panel.

**Annual Mothers Day**

Parents were thrilled to see their talented wards create magic with their performance at the Annual Mothers Day celebrations organized by CMS, Aliganj at the branch premises. The entire premises reverberated with loud clappings as these meritorious tiny-tots set the tune with their performances. Chief Guest on this occasion was Hon'ble Shri Nakul Dubey, Minister for Urban Development.

**Seminar on Higher Studies**

The Personality Development and Career Counselling Department of CMS organized a Seminar on "How to acquire World Class Education in Singapore" in collaboration with Education Times and Nodnat Educational Services at CMS Gomtinagar on 2 November. Important information on this subject was given by experts and educationists like Ms Rupal Shah, Manager, International Students' Admission, PCB Academy, Singapore.

The experts guided the students about admissions, education and scholarships available in Singapore. Students of classes X, XI and XII participated enthusiastically in this seminar. The seminar was especially useful for students interested in higher studies abroad. The parents of these students were also enlightened about the quality of education and procedure of admission abroad.

## Competition and cooperation at Quanta-2007 organised by CMS Chowk

Dr Tom Verhoeff eminent mathematician from the Netherlands lighting the lamp at Quanta 2007

The five-day International Science Festival 'Quanta-2007' was organized by at CMS Kanpur Road auditorium from 13 to 17 November. Around 500 young scientists from 22 countries namely Bulgaria, Czech Republic, Democratic Republic of Congo, Finland, Germany, Greece, Jordan, Malaysia, Nepal, Netherlands, Nigeria, Pakistan, Poland, Portugal, Russia, South Africa, Sri Lanka, Turkey, Thailand, Ukraine, USA and various states of India participated with full zeal and enthusiasm in this festival and proved their scientific prowess and artistic talents.

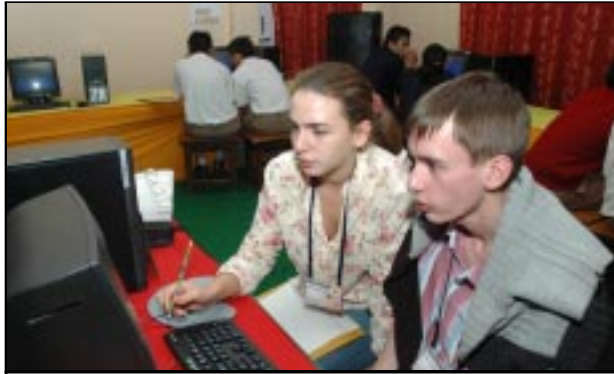

On 13 November, speaking at the inaugural function, the Chief Guest, Hon'ble Mr Abdul Mannan, Minister for Science and Technology, UP said that there is an urgent need today to combine science with humanity. Progress in science is the surest way towards human development.

Tough competition was witnessed in debate, collage-making, Acta Mathematica (maths), astronomy, science and mental ability quizzes, science debate, model making and other exciting contests. The quizzes were conducted by the famous literary figure of Lucknow, Mr Carlyle Mac Farland. Talents poured out from 22 countries of the world making it seem a truly global society as cultures mingled and matched and a new World Culture was born. At the closing ceremony, Dr Tom Verhoeff, Dept of Mathematics, Eindhoven University of Technology, Netherlands, honoured and gave away the trophies medals and certificates to the prize winners. The Students Research Centre, Germany bagged the Championship Trophy of Quanta-2007 while CMS Kanpur Road won the first Runner Up Trophy.

The 22 member delegation from Beaconhouse School System, Lahore, Pakistan echoed the spirit of participants saying that when we observe the earth from the sky above, we see no boundaries between nations. The wind, mountains, rivers and birds recognize no boundaries. Similarly, human beings should also accept the truth of Oneness of Mankind and live as one human

family. In this, lies the welfare of humankind. It may be mentioned that Beaconhouse School System is one of the biggest chain of schools established by the Foreign Minister of Pakistan, Mr. Khurshid M. Kasuri.

Mrs. Sadhna Bedi, Secretary of Quanta and Principal of CMS Chowk Branch invited all the participants to come again for the next Quanta-2008.

Students from various countries participating in Software Solutions Contest

Debate was a thrilling experience at Quanta

## Why this Conference?

Children are common denominators or common concern for all nations and it is imperative that their future must be safeguarded. No nation can ignore its own children or children of the world. It is our inter-generational responsibility to bequeath to them a brighter and safer future.

All the children of the world expectantly look up to the Hon'ble World Judiciary to support their call for Enforceable International Law through strengthening the United Nations system and empowering the International Court of Justice so as to protect their right to inherit a safe and healthy world and safeguard their future against the threats of international terrorism, environmental degradation, global warming and climatic changes leading to an eco-catastrophe, world war and nuclear holocaust. The children have a right to a safe and healthy environment, clean air and potable water. Therefore, the students of CMS, on behalf of two billion children of the world and generations yet-to-be-born, are submitting a Petition in Public Interest.

Since the petitioners, the world's two billion children can not collectively come to the Full Bench of the World Judiciary, CMS is arranging for 8th International Conference of Chief Justices of the World (The World Judiciary Summit 2007) from 7 to 11 December 2007 at Lucknow, India, where Hon'ble Chief Justices of all the countries of the world may, besides addressing the Conference, sit as a Full Bench of World Judiciary to hear Children's Petition/ Appeal presented to the World Judiciary by representatives of over 32,000 CMS students, on behalf of world's two billion children and generations yet-to-be-born.

So far, seven International Conferences of the Chief Justices of the World have been organized by CMS in preceding years. The World Judiciary Summit 2007 at the forthcoming 8th International Conference of Chief Justices of the World is expected to be the largest congregation of international judicial fraternity to deliberate upon the significant role World Judiciary can play in making the world a better place to live in for coming generations.

Hon'ble Chief Justices and Judges from more than one hundred countries of the world are expected to participate in the 8th International Conference of Chief Justices of the World. And, as such, the proposed Bench will be the biggest ever constituted in the world and opinion expressed by such a Bench will go down in history as a landmark in the interest of two billion children of the world and future generations, which the decision makers of the world will not be able to ignore. The Hon'ble Justices will be remembered as saviours of mankind forever.

## Children's Appeal to World Judiciary to protect their Right to a Safe Ecology and Safe Future

To

**The Hon'ble Members of World Judiciary**

at the 8<sup>th</sup> International Conference of Chief Justices of the World

### IN THE MATTER OF INTERNATIONAL PEACE AND SECURITY AND FOR SAFE FUTURE FOR CHILDREN

Your Lordship,

We, the over 32,000 students of City Montessori School, Lucknow, on behalf of World's two-billion children and generations yet unborn, beg to submit this appeal and hereby submit as follows:

1) That, the present world situation is grim owing to the stockpile of more than 36,000 nuclear, chemical and biological weapons capable of destroying the world several times over and also due to the problems of International terrorism, drug trafficking, conflicts between nations, global warming and ecological imbalance, alarming growth of deserts and desertification world over, melting of the polar ice caps and the Siberian peat bogs, threaten our future to no end;

2) That we, the children of the world feel that in such a situation, our future is not safe and that our elders are not doing enough to save us from such agony and we are continuously living under the danger of total destruction by nuclear holocaust or by global warming and environmental destruction;

3) That, plight of children is evident from U.N. figures, according to which 40,000 children under the age of five die each day from malnutrition and preventable diseases; in the last decade of the last century, 2 millions children died in war, 4 to 5 million are handicapped, 12 million became homeless and one million lost their parents or were separated from them and over 300 thousand have been exploited as soldiers, bearers and mine-workers. Besides, over 100 million children through out the world are forced to work under hazardous and often fatal conditions; more than 10 million are child refugees and 113 million children never ever begin school;

4) That, on one hand, huge resources are being squandered on production of weapons of mass destruction and on war preparedness; on the other hand, owing to paucity of resources a very large number of children all over the world are divested of their rights to education, food, shelter and clothing, to live in peace and security.

5) That, according to U.N. figures, in the year 1995, more than 1.5 million dollars were spent on defence every single minute by various countries which comes to about 800 billion dollars in one year. According to U.N. estimates, an additional amount of only 28 billion US dollars, over and above the amount being spent presently, would be required per year to achieve universal basic education, ensure basic health and nutrition for all and provide clean water and sanitation world wide.

6) That, the above situation demands complete transformation of the present world order because protecting the rights of the children all over the world is the moral responsibility of the international community which can be met only by empowering the International Court of Justice to settle disputes among nations and dispense justice and strengthening the United Nations Systems. Only then it will be possible to regulate international conduct so as to ensure unity and peace in the world and safety from danger of eco disaster and terrorism etc. so that the problems of children of the world be suitably addressed and their various rights safeguarded;

7) That, in spite of the efforts of the League of Nations and the United Nations Organization, there has been large scale violence and wars and also world wars. Millions of people have been killed and maimed and millions of children have either died or maimed or have been orphaned due to wars, disease, hunger or malnutrition. Decision makers do not appear to be concerned with our plight and it has compelled us to approach Your Honors;

8) That, solutions of the present day problems are urgently required and we crave for a peaceful atmosphere, full of love, unity, brotherhood and understanding and a safe future for our own sake and for future generations; and we have faith that all our elders love their children and shall therefore seriously consider and dedicate their time and energy for the cause of their beloved children; and

9) That, you are of highest repute and are dedicated to justice, impartiality and regard to universal values and law and are highly esteemed and trusted by all sections of society and, as such, we, the children of the world, have full faith that your views and directions shall carry more weight and shall stir the conscience of Decision makers and compel them to act in a positive way for fulfilling our demands.

THEREFORE, we, the children of the City Montessori School (CMS), Lucknow, on behalf of two billion children of the world and generations yet to be born, do hereby appeal to the Hon'ble World Judiciary to support our call for Enforceable International Law through strengthening the United Nations Systems and for empowering the International Court of Justice for ensuring a safe ecology and a safe future for us and also to protect our various rights as children, such as right to proper food, nutrition, shelter, clothing, safe drinking water, health services, education and above all, an atmosphere of love, unity, goodwill and peace to enable us to grow into fine adulthood and contribute our mite in making the planet Earth a perfectly peaceful and prosperous global village.

—PETITIONERS

10<sup>th</sup> International Convention on Quality Control Circles organised by CMS Kanpur Road

# CMS celebrates a Decade of Quality and Excellence

Around 2000 students, educationists and renowned quality experts representing 21 countries of the world namely Australia, Bangladesh, Republic of Congo, Germany, Hong Kong, Iran, Kuwait, Malaysia, Mauritius, Nepal, Pakistan, Philippines, Qatar, Singapore, Sri Lanka, South Africa, Turkey, England, USA, Zambia and various states of India participated in the historic and unique mega event of the year - the 10th International Convention on Students' Quality Control Circle "ICSQCC-2007" organized by CMS, Kanpur Road from 28 November to 1st December 2007 at its huge auditorium.

At this convention, the participants of various countries presented their case studies and made paper presentations besides involving themselves in a series of exciting contests like Collage, Debate, Poster-making, Slogan Writing etc., all related to quality control. The grand inaugural ceremony of ICSQCC 2007 was held at CMS Kanpur Road auditorium on 28 November which was inaugurated by **Prof Mary Stuart, Dy. Vice-Chancellor of Kingston University, UK** amidst great rejoicing. CMS students presented a colourful educational-cultural programme on this occasion in honour of the participating guests from India and abroad.

*Quality Leadership is a process by which a person influences others to accomplish an objective and directs the organization in a way that makes it more cohesive and coherent. Leaders carry out this process by applying their leadership attributes such as beliefs, values, ethics, judiciousness, character, knowledge and skills.*

### A brief history:

CMS is the first school in the world which has introduced Quality Circles in academics as a result of which the school has established a new landmark in the history of education and is giving a new direction to society. Quality Control Circle concept was founded by the famous Japanese philosopher and social reformer, Ichikawa in 1960. QC movement has taken a global shape over the years. Adoption of QC concept and philosophy has been responsible for the phenomenal economic growth of Japan after World War II. Japan started quality circles based on Kaizen philosophy. Kaizen means continuous improvement in any field to make it better and better. In the present scenario, the deteriorating condition of education is a cause of worry for all. In this grave situation, it is essential for schools and colleges to establish students' quality circles which are highly beneficial. Thus realizing its duty towards the world of academics and the society as a whole, CMS established the first Quality Circle in the year 1993. Five students of this school made the first Students' Quality Circle QC 'Jai Jagat'. This students' team presented its case study in Hong Kong at the International Quality Control Circle Convention and won the 'Outstanding Entry' award. Following this, CMS students presented their case studies in Malaysia, Sri Lanka, Australia, Mauritius, Singapore, the Philippines etc and surprised everybody.

Besides, CMS has set up an International QC Academy at CMS Kanpur Road with cooperation of QCI International, USA. The first Students' Quality Control Circle was an initiative of City Montessori School in 1997 after which International Students' QC Circle Conventions were organized in Lucknow in 1999, 2001, 2003 and 2005. The main aim of Student Quality Control Circles at CMS is to make each child a pride of the human race and a gift of God to mankind. Through Students' Quality Circles, the institution imparts universal values, Global Understanding, Excellence in all things and Service to Mankind to its students. This has revolutionized education and raised its standard to its meet the growing challenges of the 21st century.

During this Convention, case study presentations, quality quiz, collage, debate, poster and slogan writing, poetry, essay, general knowledge and paper presentation contests are held which stimulate quality consciousness amongst the youth. Quality circles have brought a revolution in teaching methods and uplifted educational standards by enforcing discipline, character building, cooperation, harmony and excellence amongst students.

## YOUR FOOD - YOUR MEDICINE FOR TODAY AND TOMORROW AMLA-THE REGENERATOR

Amla is a powerful fruit capable of giving your body a diverse range of benefits.

- It nourishes all the body tissues and accelerates the cell regeneration process.
- It has very strong cleansing qualities and helps maintain energy levels and natural vitality.
- Amla is the most potent source of natural vitamin C known to humanity. It assists in building up your immune system.

**COMPLETELY AVOID TAKING AMLA AS Murabba or any candied form.** The sugar coated fruit provides absolutely no advantage.

It is important to know which foods are good. It is of even greater importance to know HOW TO CONSUME SUCH GOOD FOODS.

The same Amla as Murabba causes harm.

The correct manner of consuming this regenerator is to take it in its natural form. You can make chutneys, sauces and dry pickle from Amla that can be taken in the right compositions to give you **MAXIMUM BENEFIT**.

Take a look at using this wonderful fruit in the most **OPTIMAL WAY**.

### REDBELLSAUCE

#### Ingredients:

- 5 Amlas 4 Dates
- 4 Peppercorns
- 1 Green Cardamom 1 Green Chilli
- 50 gm of Coriander Leaves 1 Red Bell Pepper (Big)
- 3/4 Teaspoon Black Salt

#### Preparation:

Wash Amlas and shred them using grater. Separate the pit and discard it. Chop Dates and Green Chilli.

Wash Coriander leaves and chop them coarsely. Wash Bell Pepper. Deseed it and chop it.

#### How to Create:

Put all the above ingredients along with Pepper Corn, Green Cardamom and Salt into the blender and make it into a creamy flowing sauce.

Boil a few potatoes with the jacket on them. Cut them into round shapes. Lay these flat on plate and put the Red Bell Sauce on them OR simply enjoy the Potato roundels with the sauce as a dip.

**Take this treat as a snack in the evening 2-3 hours before dinner. You will be hooked to it!**
