Our School Prayer

*I bear witness, O my God, that Thou hast created me to know Thee and to worship Thee. I testify at this moment to my powerlessness and to Thy might, to my poverty and to Thy wealth. There is none other God but Thee, the Help in Peril, the Self-Subsisting.*

CMS Vision

The CMS vision is to create world unity through education and to nurture thoughtful and proactive world citizens and leaders committed to the service of humanity.

CMS Mission

The CMS mission is to create a better future for all children. We achieve this by maximising opportunities for children through holistic, values-based education of the highest quality and through initiatives that promote unity and meaningful social action for development.

4 Building Blocks of CMS

- Universal Values
- Service to the World
- Global Understanding
- Excellence in All Things

4 Pillars of CMS

- Knowledge
- Wisdom
- Spiritual Perception
- Eloquent Speech

4 Pillars of CMS Education
City Montessori School (CMS)
Preparation world citizens since 1959

Overview

City Montessori School (CMS) is the world's largest city-school, with 18 campuses in the city of Lucknow. CMS has been ranked among India's Top 3 Most Respected Education Brands (Education World), has held 5 of the Top 10 schools ranking in Lucknow, and has the #1 campus in UP (Gomti Nagar Campus I). The school that began with 5 children in 1959 on a borrowed capital of 300 rupees today has over 57,000 students from Montessori to Class XII.

Our founders, Dr Jagdish Gandhi and Dr Bharti Gandhi, were inspired by the teachings of Mahatma Gandhi and Sant Vinoba Bhave. They started CMS with the vision of inspiring generations of children to become socially conscious world citizens, committed to the service of humanity.

Their motto Jai Jagat has been the school's greeting from the beginning, as a deliberate contrast to the popular Jai Hind greeting at the time. CMS children are taught the value of Vasudhaiv Kutumbakam, or 'the Earth is but One Country and Mankind its Citizens'.
Meet the Management

Dr Jagdish Gandhi  
*Founder-Manager*

Apart from nurturing CMS into the world’s largest city-school, Dr Gandhi has attracted global acclaim for promoting international peace. For his services to Indian education Dr Gandhi has been recognized around the world. Among them: the Yash Bharati Award of the UP Government (2014); the Gusi Peace Prize of the Philippines (2011); the Hope of Humanity Award by the Dalai Lama (2010); the Key to the City of Georgetown, USA (2002); and honorary doctorates from universities in Russia, Peru, Turkey, Mongolia and Argentina.

Dr Jagdish Gandhi speaks regularly on international and national TV channels including News 18 India, Aaj Tak, Sadhana Prime News, ETV, K News, News 1 India, OK-India, India News, India Watch, Hindi Khabar, Bharat Samachar, Aalami Sahara and CMS Local Channel.

He has served as the Chief Organizer of the International Conference of Chief Justices of the World every year for the past 20 years, convening the highest-level Parliamentarians and Judiciary members from across the globe.

Dr Bharti Gandhi  
*Founder-Director*

An alumna of Lucknow University and former psychologist at the UP government’s Psychology Bureau, Dr Bharti Gandhi is co-founder of CMS. An able administrator and leader, she has championed numerous social causes and convened an all-India Anti Dowry Conference and the UP State Prohibition Conference. Dr Bharti has organised several children’s and youth festivals to promote international peace, and has organized a Sunday Satsang (spiritual discourse) every week for the last 20 years at CMS.

For her contributions to education and women’s empowerment she has been conferred many prestigious awards including the Devi Award, Janpriya Vyaktitwa Samman, Bhartiya Nari Samman, Rani Laxmibai Bravery Award, Adhi Abadi Award and most recently, a Lifetime Achievement Award at the House of Commons, London.

Professor  
*Geeta Gandhi Kingdon*  
*President*

Geeta Gandhi Kingdon has been President of City Montessori School Society since 2007, while also being Professor at the Institute of Education, University College London (UCL), where she holds the Chair of ‘Education Economics and International Development’. She has a BSc (Honours) in Economics from the London School of Economics and a D.Phil in Development Economics from the University Oxford. In 2010, she moved back to India after living in England for 31 years, in order to become the Chief Operating Officer of CMS, but she continues to work as UCL professor part time. As CMS President, her focus has been on modernising this 60 year old legacy school while maintaining the culture and traditions that have made it great.

Roshan Gandhi  
*Director of Strategy*

As Director of Strategy, Mr Roshan Gandhi is leading innovation through means such as the integration of educational technology, new methods for character education, data-driven target-setting, curricular career counselling, and more. He is overseeing strategic overhauling of the organisation’s operations through automation, computerisation, and process modernisation, as well as driving infrastructural upgrading across all CMS schools. Bringing international experience as a graduate of the University of Oxford and a MBA in Educational Leadership from University College London (UCL), he has worked in and continues to consult for multiple educational technology companies, and is a certified career counsellor. A passionate enthusiast for education, Roshan is a frequent keynote and panel speaker at educational conferences around the country, and is associated with a prominent think tank leading education policy reform.
Out of the 5972 CMS students who appeared for the ICSE & ISC Board Exams, 2936 (49.16%) secured aggregate marks between 90% & 99.75%.
2019-20 marked the diamond jubilee of CMS. This completion of 60 glorious years of service to the children of Lucknow was befittingly celebrated with the launch of a biography of our Founders, a grand ‘Western Classical Music Concert’ with 168 musician from 17 nations and 11 Indian States, by the India National Youth Orchestra and Chorus (INYOC), a special celebration with an alumni meet, and a grand parade in November 2019, with student bands, dances and tableaus depicting the school’s history and philosophy.

Throughout the session 2019-20 we created opportunities for our students to grow in confidence and develop skills through our diverse programme of sport, music, literary activities, art-craft, debates, public speaking, educational trips, youth empowerment activities, school council processes, community service, environmental activities, hobby clubs and international exchanges. Through these students learned to fail and succeed and gained perspective and self-knowledge. We are especially proud that, belying our large size, we created space and opportunity for the flourishing of the talents and niche interests of individual children. And, even when it did not get translated into visible achievement, we valued effort, participation (in a broad range of activities), and, importantly, also one another.

Euphoria over board results
Jubilation over the board exam results was justified, since quality was achieved in large quantity: A total of 2940 CMS pupils of ICSE and ISC (49.3% of the total of 5964 board exam takers of CMS in March 2019) got an aggregate mark of 90% to 99.75%. Vedanshi Tiwari secured second All India Rank (AIR) in the ISC with 99.75%. In ICSE, Radhika Gupta also grabbed the AIR 2 with a 99.40% mark. Nine students secured the AIR 3 nationally, in ISC with a 99.50% aggregate mark, while one student, Shashwat Verma secured AIR 3 in ICSE with a 99.20%. A total of 123 ISC students of CMS were among the ISC Top Ten AIR holders. At the ICSE level, 50 CMS students of Class 10 were in the All India top-10 ICSE Merit list (for more details, see www.cmseducation.org/monthly_bulletin/session_2019_2020/july.html).

Admission offers from universities abroad
81 CMS students received admission offers from some highly ranked universities abroad in the US, UK, Australia, Hong Kong, Japan, Finland, Spain, Germany, Abu Dhabi, Japan, Hong Kong and Canada in the calendar year 2019, and 34 of them received generous scholarships, with several getting 100% scholarship for 4 years. From 2016-2019, 250 CMS students have received offer from universities abroad out of which 136 students received generous scholarships. Two CMS students won the Tata Trust 100% scholarship to study at Cornell University; Aditya Dwivedi in Fall 2016, and Deepika Gupta in Fall 2017; Saubhagya Vardhan went on a 100% scholarship to Stanford University. (for more detailed information, see www.cmseducation.org/results_&_achievements/top_universities.html.)

Professional course entrances and scholarships
62 CMS students qualified the IIT-JEE exam 2019, out of the 256 who passed the IIT Mains exam. 96 students passed the NEET exam for medical entrance, and 25 the CLAT exam for entry into the national law colleges. 12 CMS students were selected for the Kishore Vaigyanik Protsahan Yojna Scholarship (KVPY) 2019 winning a total scholarship of Rs 48 Lakhs. 83 CMS students of class XII qualified for the Government of India’s Ministry of Science & Technology National Merit scholarship of Rs. 4 lakh each, earning a total scholarship of Rs 3.32 crore. CMS students excelled in the International Benchmark Test (IBT) conducted by the Australian Council for Educational Research (ACER), with 6 students securing 100% marks and winning top positions at the international level. See www.cmseducation.org/results_&_achievements/selection.html

Success in the Civil Services exams
Six CMS alumni entered the prestigious Civil Services to become IAS officers in 2019: Ayushi Singh (Rank 86), Nripendra Singh (Rank 327), Kriti Pandey (Rank 389), Siddhartha Gautam (Rank 538), Deepak Misra (Rank 511), Abhijeet Kumar (Rank 717). Six CMS ex-students have been selected in prestigious PCS entrance exams: Aishwarya Nanda of CMS Aliganj I, Surabhi Roy of CMS Mahanagar, Lavi Tripathi of CMS Mahanagar, Anandya Vikram Singh of CMS Gomti Nagar I in 2017, Alpika Verma of CMS Rajendra Nagar I and Shruti Gupta of CMS Aliganj I.
Three CMS alumnae passed the PCS-J (Judicial Services) exam in 2018-19 (results declared in 2019), and will go on to become judges: Ayushi Chaturvedi alumna of CMS Station Road campus (Rank 77); Umaima Shahnavaz, Station Road campus (Rank 100); and Vrushali Gupta, Mahanagar campus (Rank 391).

For details, see: www.cmseducation.org/results_&_achievements/ias_selection.html

External Recognition

CMS again figured in the Guinness Book of Records as the World's Largest City School with the updated figure of 55,547 pupils as of 16 Jan 2019. CMS was ranked among India's top three 'Most Respected Education Brands' by the premier education magazine Education World in September 2019.

CMS Founder-Manager Dr Jagdish Gandhi was honoured with a 'Lifetime Achievement award' at the 'Education Excellence Awards' ceremony in Dehradun, and the CMS Founder-Director Dr Bharti Gandhi was honoured with a 'Lifetime Achievement Award' for her outstanding contributions to education in the Churchill Hall at the British Parliament in London, by the Intelligent Minds Trust.

Ms Manjot Batra (Senior Principal, Gomti Nagar Extension campus) was bestowed with "Leadership Award for Excellence in Co-Curricular Education" at a national function in New Delhi. Mrs Jyoti Kashyap, Senior Principal of CMS Aliganj Campus I and Mrs Abha Anant, Principal of Gomti Nagar Campus I were conferred 'Future 50 Leaders Shaping Success' award at a ceremony held in Jaipur.

CMS Gomti Nagar I Campus was judged the Best Co-Educational School in Uttar Pradesh by the Education World magazine. CMS Aliganj and CMS Rajendra Nagar were placed 5th and 6th while CMS Rajajipuram and CMS Kanpur Road were ranked 9th and 10th. Thus, five CMS campuses were ranked among the top ten co-educational schools of Lucknow.

see www.cmseducation.org/awards_recognitions/index.html

Developments in infrastructure

In 2019, CMS Rajajipuram I Campus, Gomti Nagar II and Rajendra Nagar III were equipped with new Robotics Labs, and attractive new libraries were made at Anand Nagar, Chowk, Rajajipuram I and Gomti Nagar I campuses. Buildings were expanded at the CMS Mahanagar, Ashrafabad, Kanpur Road campuses and at Head Office. In addition, land was acquired adjacent to the Gomti Nagar extension campus and in Jopling Road for future growth and better facilities. We installed solar panels at five campuses: Kanpur Road, Rajajipuram I, Aliganj I, Gomti Nagar I and Gomti Nagar II campuses. A unique state-of-the-art Career Library was set up at the CMS Rajajipuram Campus I.

We upgraded all ISC classes (classes 11 to 12) with brand new furniture, which completes our six-year project to provide new furniture to all students from Montessori to Class 12. For details, please visit: www.cmseducation.org/infrastructure_facilities/index.html

Staff training

Training (in pedagogy, subject-matter knowledge and IT) is a strong perennial theme at CMS and 2019-20 was no exception. We organised workshops by Ms Sumathi Shivashankar from Association Montessori Internationale, on the use of Montessori Apparatus for Pre Primary teachers; training on Phonics for Pre Primary and Primary teachers; and Workshops for Primary Maths teachers. Junior teachers were trained in Mind Mapping and Mathematics. For the training of senior teachers, Mrs Hilda Peacock for ICSE English Language, Mrs Suchismita Raha for ISC English Literature and Mrs Adarsh Wadhwa for ISC Accounts were sent by the CISCE Council to apprise teachers about the latest trends and expectations in their subjects. Champion Teachers from various CMS campuses and Facilitators from the CMS Innovation Wing conducted refresher training workshops, especially during periods of weather-related school closures.

Several CMS teachers excelled nationally in the CENTA Teachers’ Professional Olympiad.

- **Professional Learning Communities (PLCs)**
  Professional Learning Communities (PLCs) are groups of teachers and administrators engaged in sharing and generating new ideas through continuous enquiry and improvement for the benefit of students. The process of developing PLCs in CMS has borne fruit as various vertical and horizontal PLCs have been successfully established in most campuses. This has promoted cooperation, support and personal development of teachers and has influenced classroom teaching practices via more evidence-driven decision making.

- **Open Education Resources (OERs)**
  CMS teachers are not only curating Open Education Resources (OERs) from the internet, but also developing their own in house Effective Resourceful Assets (ERA). They are trained by...
the CMS eLearning Department in collaboration with the Innovation Wing, to create digital content that is customized for the CMS classes. Several of our teachers won the national Tata ClassEdge competition. For details see: www.cmsitportal.org/resource

Learning Expedition for Educators and Mentors
To bring their learning into the classrooms, teachers of the CMS Cambridge section planned an expedition for grade VIII students, 'How a historian works', taking Social Studies as the core subject, seeking to develop skills aligned with the syllabus, such as observing and making inferences, while analysing the primary sources available in their city like monuments, bazars, houses, arts and crafts, food, languages. Students also learned the crucial skill of taking other perspectives into account while reconstructing old narratives. Students also understood the concept of continuity and change by mapping the changes the city had undergone.

Safety and Security
Campus safety and security committees continued their monthly minuted-meetings to ensure that safety is kept a foremost concern of the campus leadership team. Police verification of all school drivers and helper staff was completed in 2019-20. Regular training and workshops on health and hygiene, POCSO Act 2012, and Prevention of Sexual Harassment Act 2013 was conducted periodically in 2019-20. Workshops were conducted for all CMS bus/van/rickshaw drivers and cleaners with the help of the staff of the RTO and the traffic police, on the New Motor Vehicle Amendment Act 2019 which includes road and child safety aspects.
More CCTV cameras were added on the school premises, and the existing ones maintained. A qualified full-time Environmental Health and Safety (EHS) officer was appointed in 2019. There was fortnightly checking of the functionality of the fire safety equipment, periodic Fire-Fighting Mock Drills, and extensive training of staff in the use of fire-extinguishers and hose-pipes. Emergency evacuation plans continue to be displayed near staircases. For more details, see www.cmseducation.org/safety.

Introduction of Technology
We had already successfully installed Interactive Whiteboards and Interactive Flat Panels, and provided high quality Tata ClassEdge curriculum-mapped soft-content, classroom activities and multiple types of digital assets like Smart Notebook across all CMS classrooms. In 2019-20, there has been a progression to new technologies to further enhance teaching and learning. We are successfully running projects of Artificially Intelligent e-learning platforms (Khan Academy, Seneca Learning App, Genius Corner) in campuses. Students learn using built-in content, and based on their answers to a number of diagnostic and formative assessments, the system automatically (using machine learning and big data) provides a personalized learning path for each student. CMS’s administrative processes are rapidly being automated, thanks to a dedicated in-house development team.

For more information, please visit: www.cmsitportal.org

Child Wellbeing
The CMS Child Wellbeing Department will complete its fifth year in July 2020. Our 14 full time psychological counsellors continued to provide support to students and their families in 2019-20 in a warm and supportive environment. 2019-20 was celebrated as ‘year of Compassion’.
The school counsellors provided Individual Counselling, Group Counselling, Parental Counselling, Family Counselling and Life skill training. To keep their professionalism high, they themselves were provided frequent training opportunities in 2019-20, including training on the POCSO Act 2012; training on ‘How to deal with Self harm Behavior in Adolescents and Young Adults’; a training named ‘Path to Success – Study Smart’; and a session on safe use of Internet, Cyber Laws and Data privacy to make students virtually smart.
A Child Wellbeing survey was conducted for CMS Junior and Senior Students in August 2019, to gain a better understanding of various aspects such as children’s diet, nutrition, exercise, bullying, perceptions of inequality, and self-perceived socio-emotional state. For more information please see: www.cmseducation.org/childwellbeing

Expanding international opportunities
Opportunities for international exposure of our students expanded further in 2019-20.

- In 2019, CMS became a TOEFL test centre, for the 'Test of English as a Foreign Language', which enables Indian students to enroll in universities abroad.
- We continued to be the only exam center in UP for the SAT, AP and ACT exams for entrance into US universities, and for the Cambridge Assessment Admissions Testing (CAAT) exams for entrance into UK Universities, which includes the BMAT and UKCAT tests for entry into medicine and natural sciences courses at Oxford and Cambridge.
- In 2019, CMS’s in-house career counselors participated in the International Career and College Counselling Conference (IC3) in Mumbai in August 2019, and in a training workshop of the International Award for Young People (IAYP). CMS also hosted the 2019 IC3 Regional ICCF Forum in April 2019.
- In 2019-20, the sophisticated Mindler career guidance programme was successfully rolled out for all our students of Classes 9-12, with personalized insights into career options through psychometric testing, expert counselling, and access to valuable materials.
- Apurva Chauhan, Gomti Nagar Campus I received her level 4 ABRSM Diploma at the ABRSM Diploma Awards ceremony for South East Asia at Kuala Lumpur, Malaysia on 13 April 2019, becoming the youngest Indian to join the elite group of renowned opera singers such as Cecilia Bartoli (Italy), Renee Fleming (USA) etc.
- The popular singing duo, 'Jack & Joel', from the University of Oxford, UK, performed live concerts at CMS and received overwhelming response.
- To celebrate the CMS Diamond Jubilee (1959-2019) and 150th birth of Mahatma Gandhi, CMS organized a grand
'Western Classical Music Concert'. 168 musician from 17 nations and 11 Indian States representing the Vienna University Philharmonic Orchestra and Choir (INYOC) and musicians from the Dominican Republic performed selected pieces of music of four of the greatest 18th & 19th century classical composers.

- An eight member delegation of German teachers visited CMS to study its unique pedagogical methods to impart a holistic education to students.
- The CMS Cambridge Section (at our Gomti Nagar Extension campus), which is Lucknow’s only secondary school affiliated with an international exam board (Cambridge Assessment International Education, CAIE), expanded to class 11th, also known as AS (‘Advanced Secondary’) Level. In March 2021 students will sit their first A-Level (class 12) board exam.
- The number of CMS students opting for German reached about 4,500 this year. 9 CMS students are currently studying in German universities free of tuition-fee, thanks to these classes.

Sports at CMS
CMS Gomti Nagar I campus got a large new astro-turf playground in 2019-20. International cricket matches are played under state-of-the-art floodlights that have been installed at the cricket stadium of CMS Kanpur Road campus, which also organized the hugely successful CISCE National Cricket Tournament this academic session. RDSO organized “EXSPO” International 2019 in 15 sporting disciplines. International teams from a number of countries participated in the International football tournament “Concord” which was organized by CMS Station Road campus. Like every year, inter-campus games and sports competitions were held in football, basketball, table tennis, karate, judo, cricket, yoga athletics, swimming, etc. CMS students brought laurels to the school by winning numerous awards at the zonal, state, national levels, including 17 students representing the Council at the SGFI (Sports and Games Federation of India) Games 2019-20 in swimming, cricket, karate, taekwondo and yoga. For more information, please visit: www.cmseducation.org/sports/

Global Exposure to CMS students
In a globalizing world, CMS students benefitted enormously from international exposure that we purposively arranged for them. In 2019-20, CMS hosted a number of international events, conferences, festivals and olympiads, participated in the ‘Generation Global’ international video-conferences for dialogue with foreign counterparts, and went on educational programmes in Australia, Austria, Egypt, France, Germany, Hungary, Italy, Mauritius, Norway, South Africa and USA. Our annual engagements with CISV and ISSE (International School to School Exchange) continued in 2019-20, creating opportunities for multi-cultural experience.

Conclusion
CMS has striven to make its education more relevant by choosing pedagogical approaches and technologies that develop the skills needed today. We have also expanded our child wellbeing, virtues-orientation and youth empowerment work to develop pupils' socio-emotional skills. We have sought to create a happy environment in our school, where there is scope for self-expression, where pupils feel accepted, affirmed and fortified, where their confidence and self-belief grows, and where they feel empowered to take on the world.

I am absolutely thrilled with the developments of the past year, and am proud of the diligent and dutiful CMS staff who remain in a posture of learning, and are constantly accepting new challenges in order to help students to shore up the many spectacular victories described above. I am grateful to our discerning parent community for recognizing the specialness of a CMS education, for entrusting us with their children and for supporting the home-school partnership.
CMS: Now a Cambridge School

CMS Gomti Nagar Extension campus is now also affiliated with the Cambridge Assessment International Education (CAIE) Board, which is part of the University of Cambridge. The IGCSE (International General Certificate of Secondary Education) qualification is recognised as equivalent to Class 10 and the Advanced Level (A-Level) qualification is recognised by the Association of Indian Universities (AIU) as equivalent to any higher secondary qualifications of Boards in India. To learn in more detail about the distinctive features of the CMS Cambridge section, please ask your campus for the separate CMS Cambridge section prospectus, or visit www.cmseducation.org/cambridge

The CMS Cambridge Experience

CMS Cambridge Section is open for students of Classes IV-XII, offering both IGCSEs and A Levels, with subject choices including English, Mathematics, Physics, Chemistry, Biology, Business Studies, Economics, History, Geography, Computer Science, Hindi, German, and French.

The IGCSE at CMS Cambridge offers a flexible and stimulating curriculum, supported with excellent resources and training. For learners, the Cambridge Section helps improve performance by developing skills in creative thinking, enquiry and problem solving.

CMS Cambridge classes have a maximum of 30 students per class, and all classes are fully air-conditioned. Apart from the commitment to academic excellence, a vast range of extra-curricular activities are an integrated part of the CMS Cambridge timetable, and a huge amount of support is provided to enable students to gain admission in universities abroad.

About the Cambridge Board

Cambridge Assessment International Education is part of the University of Cambridge, one of the world’s top universities trusted for excellence in education. It is the world’s largest provider of international qualifications for students aged between 5-19 years. Its qualifications are recognized and accepted by universities, educators and employers across the globe.

The IGCSE qualification (International General Certificate of Secondary Education) is recognised by the Council of Boards of School Education (COBSE) of India and is equivalent to any Class X Board. The A-Level qualifications are recognized by the Association of Indian Universities (AIU) as equivalent to any Class XII qualifications. (See also www.cambridgeinternational.org/programmes-and-qualifications/recognition-and-acceptance)
Academics in 2019-20

Session 2019-20 was a year of achievements galore for the CMS Cambridge section, the highlight being the much awaited IGCSE results.

Divyam Chaudhary topped with five A*s and three As. The second and third places were secured by Tribhuvan Singh and Syed Mahmood respectively. 70% of the students got an A*, A or B making it an impressive maiden performance. With multiple papers back to back, no inflation and no moderation - every mark was truly earned.

The IBT results were also encouraging with Anahita Singh and Sneha Singh securing 99.9 percentile in English. The overall result of Class X was higher than the international average in English.

Student speak

The past few years of my life have been exceedingly productive, predominantly because of my semesters at Cambridge. This school is a perfect blend of quality education and remarkably well maintained school atmosphere. The teaching staff here comprises of a hand-picked community of seasoned educationalists. Throughout my journey here, I have witnessed several constructive alterations in me, which allowed me to unleash my creative facets helping me to effectively broaden my horizons and attain proficiency in diverse aspects of contemporary arts. I am immensely pleased and grateful for the treasured casket of opportunities that Cambridge has bestowed upon me. It’s a life changing moment one should never miss.

— Divyam Chaudhary, AS level (Class XI)

Co-curricular Activities

Students-led clubs are an integral part of the CMS Cambridge School life. These clubs are built into the timetable of the students. Getting involved in clubs transpires critical thinking, organization and pursuit of excellence in them. Students can enlist themselves in any of the clubs according to their talent and choice.

These clubs are:

- Debate Club
- Business Clubs
- Sports Club - Basketball & Football
- Book Club
- Chess Club
- Music Club
- Theatre Club
- Self Defense Club
CMS has installed interactive white boards across its classrooms a total of 1155 across CMS – to drastically enhance the classroom teaching process. Recently CMS has begun acquiring Interactive Flat Panels, a more advanced version of this kind of technology, to further optimise children’s learning experience and to make technological adoption easier for teachers. Our interactive boards are equipped with Tata ClassEdge content – quality, interactive learning content mapped to the children’s curriculum. The ‘CMS ERA’ programme has also empowered teachers to develop and share learning content, while thousands of ‘Open Educational Resources’ (OERs) have been made readily accessible to all teachers.

Device-Based & Adaptive Learning

CMS has started providing devices such as tablets and state-of-the-art computers for learning. ‘Adaptive learning’ is being trialled in a variety of pilot projects to personalise learning to the needs of individual students by pitching specific learning content to each student according to his or her own level of understanding and pace of learning. At the same time, meaningful data is automatically aggregated for teachers to use to inform their teaching strategies. This is enabled through continuous diagnostic assessment through the

Interactive White Boards & Flat Panels

CMS has started providing devices such as tablets and state-of-the-art computers for learning. ‘Adaptive learning’ is being trialled in a variety of pilot projects to personalise learning to the needs of individual students by pitching specific learning content to each student according to his or her own level of understanding and pace of learning. At the same time, meaningful data is automatically aggregated for teachers to use to inform their teaching strategies. This is enabled through continuous diagnostic assessment through the

IT Training & Support

Our IT Training Department that supports IT training of both teaching and non-teaching staff, by defining IT Training level-wise (introductory Level 1 for beginners and Level 2 for project-based learning). This has empowered teachers to enhance their teaching using technological tools.

Hardware across CMS is supported by the Computer Department’s dedicated team of specialists, engineers and technicians overseeing the smooth functioning of

Our LED screens and sound systems support events for children in our state-of-the-art auditoria and across CMS campuses.
Robotics Labs

The Robotics laboratories at CMS Rajajipuram I, Gomti Nagar II, and Rajendra Nagar III started with the assistance of Bangalore-based tech firm Sirena Technologies. These have been established with the aim of introducing students to the exotic field of Robotics and cutting-edge technologies such as 3D Printing with a very practical approach, relevant to all ages, whereby students have access to all the tools, equipment and guidance they need to get started with the broad field that Robotics is. Students work with ‘Nino’ the humanoid robot, which can be programmed in many different ways and allows them to feel how powerful and interesting the world of programming can be. This knowledge and exposure will help students to brace the changing world and its exponentially growing technology, showcasing not just academic brilliance but also technological fluency.

Administrative Tools

A new school ERP system has been recently introduced across CMS, with powerful features not only to automate repetitive administrative tasks that were previously carried out by teachers manually (such as timetabling and fee collection tracking), but also to enable advanced data collection and analysis across a range of child parameters, that can be used to track and personalise a child’s learning over time.

The CMS IT Portal, created to further automate and streamline the organisation’s administrative work, has modules automating recruitment, workforce management, and procurement – major operational functions of the organisation – as well as staff Dashboards for accessing materials, events calendar, staff directory, and more, along with spaces to submit reports and facilitate internal communications. This has enabled a data-driven approach to drive operational efficiency.

Harshvardhan Bisht, a talented Class VIII student of City Montessori School, Mahanagar Campus created history by securing first position in COMPUDON JUNIOR championship bringing laurels to his school. CyberLearning India Pvt. Ltd. has organized this National Championship for junior School students on Microsoft’s Digital Literacy Standard Version 4.0.
We are constantly upgrading infrastructure to provide the best possible learning facilities to our students. CMS students can enjoy state-of-the-art facilities for sports, music, dance, science, computers, robotics, reading, and more, to learn in an ideal environment.

Career Counselling

CMS believes firmly that students must be well-equipped to make informed choices about their future, and thus has integrated career guidance and counselling as an essential part of the senior curriculum.

The Career Counselling Cell of CMS is fully dedicated to informing students about career options and study options both in India and abroad, with study-abroad having taken off in recent years with a total of 250 CMS students getting admission in universities abroad since 2016, with scholarship offers amounting to more than 80 Crores. Each student of CMS has access to dedicated school career counsellors, who have received the highest levels of training within India and abroad.

CMS has partnered with Mindler, an advanced career counselling service offered to all senior students. Mindler offers students of Classes 9-12 at least 7 in-person interactions per year with their dedicated career counselling team, comprehensive career assessments and psychometric testing, and detailed information about college, exams and stream combinations, along with access to their sophisticated online career library and blogs, plus a mechanism for remaining connected as alumni.

CMS Gomti Nagar Campus I is UP’s only Test Centre for the SAT, AP, Admission Testing Services (ATS), and American College Testing (ACT) examinations. CMS is also an International Award for Young People (IAYP) Centre. We also organise a grand annual Careers Day, with experts from a vast range of fields personally interacting with students and answering their queries, as well as frequent career advisory sessions for students throughout the year.

Career Library

The CMS Careers Library is a dedicated space for career counselling information, seminars, and training. The career folders contain information about a vast range of careers, giving pupils a basic overview about that particular career, the soft skills and personal skills required to excel in that career, eligibility criteria, and the list of courses and colleges. It also comprises of less conventional careers which will be in demand in the coming years. The Careers Library is well equipped with brochures and prospectuses of various colleges abroad and Indian Universities, as well as reference books and guides for students who desire to qualify SAT Exams. The Careers Library is also decorated with a world map marking CMS students’ global reach to motivate students to aspire to study abroad.
We at CMS proudly recognise the value of incorporating reading into a child’s curriculum as a cornerstone of their all-round development. The value of having a dedicated space in which to read peacefully, surrounded by good books in the company of fellow readers within an attractive environment, should not be underestimated — and with this motive we have recently developed state-of-the-art libraries at several CMS campuses.

CMS is also piloting programmes to enhance students’ reading using technological tools. For younger students, the ‘Freadom’ programme has been successfully piloted, whereby the school’s ecosystem becomes geared towards reading through a combination of teacher training (both facilitator-led and app-based), fun and healthy competitions, storytelling elements in the curriculum, author visits, and, most importantly, a parent app on which young students can be engaged by reading enjoyable stories to develop a love for reading. Pre-primary students of CMS also learn how to read using the Fitzroy Phonics method, for which a parent app for house practice is also available. For older students, the ‘Light Sail’ programme has been successfully piloted, through which a student’s reading level is benchmarked and the student is able to read appropriately-levelled reading content accordingly, with in-built features to ensure the student is actually comprehending what they are reading.
Joyful & Confident
Pre-Primary Years

Goals 3Es
- Encouragement
- Environment
- Example of Adults
CMS focuses on six aspects of learning that provide a comprehensive framework for a child’s development at the pre-primary level:

1. Personal, social and emotional development
2. Communication, language and literacy
3. Problem solving, reasoning and numeracy
4. Physical development
5. Creative development
6. Knowledge and understanding of the world

About 15% of the CMS student body is below the age of 6.

The school environment is engaging and responsive to the child at each stage of his/her development.

The Pre-primary years in CMS inculcate in children the qualities of curiosity, exploration and discovery in a fun-filled, safe and happy learning environment. The emphasis is on developing in students love of learning, social skills, moral values, and self-confidence. Teachers ensure this by letting the students explore, know, understand and form their own ideas. The principles of learning applied in pre-primary include Holistic Development through Integrated Learning, Active Learning, Supportive Learning, Interactive Learning and Learning through Play.
Joyful & Confident

Pre-Primary

Years

The pre-primary curriculum makes use of a range of individual and group activities which create a lively and positive learning environment. Games, songs, creative projects, story-telling, role-playing, drawing and painting help develop children’s foundational skills in literacy and numeracy. The curriculum prepares children for a smooth transition to a rigorous Primary curriculum.
Together we learn

Keeping pace with technology from a young age

I practise and I learn

www.cmseducation.org
The Primary Curriculum at CMS aims to provide a joyful environment that empowers primary age children and develops their self-confidence and competencies.

We create a stimulating learning environment that both supports and challenges the individual child.

As they grow, children develop the qualities of hard work, good manners and self-discipline. They come out as self-assured and confident individuals.

Goals 3Cs

- Confidence
- Competency in the Core Subjects
- Caring and Compassion
Together we play with clay

Creativity at Work

Soft Board work

Active Learner
Children learn better when they experience practically the knowledge that they receive through class teaching. The primary curriculum of CMS is based on experiential and research based learning. It is flexible, analytical and offers in-depth study leading to problem solving. The knowledge is imparted in smart classrooms equipped with Interactive White Boards with the latest relevant softwares with video and audio inputs for effective learning.

CMS ensures that children are well-equipped for the future.

Four Guiding Principles
1. Every child is unique
2. Positive relationships
3. Enabling environments
4. Learning and Development

Empowering Primary Years

Music is to the soul what words are to the mind
Exuding confidence
Learning important life skills
Engaging dance class
Experiential learning in Math Lab
Dance, debating, sport, Indian and Western music (with the option for individual music lessons), elocution, foreign language classes, public speaking, community service, and foreign visit opportunities are used to expand minds and shape young personalities.

The school creates a stimulating learning environment that both supports and challenges the individual student.

It promotes a safe, orderly, caring, and supportive environment.
Goals 4Es

<table>
<thead>
<tr>
<th>Expression</th>
<th>Exposure</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exchanges</td>
<td>Events</td>
</tr>
</tbody>
</table>
Students aged 11-13 are emerging as junior youth and curious adolescents. The foundations of solid learning laid here set the stage for academic success in the senior years. CMS identifies five key aspects occurring in transition from childhood to adulthood, which form the foundation of learning during the Junior years.

**Intellectual**
Students have opportunities to be curious and to have their thinking extended and challenged through activities like debating, public speaking, and participation in international events.

**Social**
Students’ need to be social and to know about themselves, is met through a culturally responsive programme like involvement in community service and a classroom culture that celebrates diversity.

**Physical**
The programme caters well for students’ needs to be physically active through sports and games, dance and inculcating in them life skills like yoga and meditation.

**Emotional and psychological**
Teachers are sensitive to the emotional and psychological changes that are happening to students.

**Moral**
With their new sense of the larger world around them, young adolescent learners are idealistic and want to have an impact on making the world a better place. There are opportunities for students through Junior Youth Empowerment Programme to participate in decision-making that affects their life within the school.
Victorious Senior Years

The senior years are a time for our students to learn valuable skills for life from our professional teachers. These years are means to achieve long-term goals and feel a sense of pride in accomplishment. To achieve this, the school sets rigorous academic standards. The objective behind doing so is our fervent desire to make every child excel and to open their eyes to possibilities that lie ahead of them in the world at large.

Our students’ success, visible through excellent board results every year, is both due to their self-motivation arising from consistent evaluation and to a very high standard of teaching.

Goals - 5Ps
- Preparation for a Life of Service
- Pleasing Personality
- Performance in the Boards
- Praiseworthy Character
- Proficiency in English
Events for Seniors

- Commonwealth Youth Conference
- International Schools Cricket Premier League (ISCPL)
- QUEST International Festival of Biotechnology
- GEOFEST Geography Olympiad
- International Youth Convention on Commerce and Economics
- QUANTA Science Olympiad
- International Convention on Students’ Quality Control Circles (ICSQCC)
- MACFAIR Mathematics and Computer Fair
- COFAS Computers and Technology
- Participation in Conferences of Chief Justices of the World
- CELESTA International
- ODYSSEY International
- EXSPO Sports
- International Young Mathematicians Convention (IYMC)

For details of these events, please see page 51 & 52 or visit www.cmseducation.org
The school works to prepare confident young adults by providing our senior students a wide variety of opportunities beyond music, dance, debating and sports. These include Career Fairs, guidance on Study Abroad, meaningful character education, lectures by eminent experts on topics of current relevance, and unparalleled global exposure through our international events, to prepare mindsets to face the challenges of the modern world.

The annual Careers Day attracts about 2000 students and parents to hear professionals (in separate halls) from all important industries and occupations. Scores of CMS students get admission offers from excellent universities abroad on generous scholarships each year.
Dedicated Career Guidance

This year, CMS is taking career guidance and counselling to an unprecedented level with Mindler, an advanced career guidance platform. Through Mindler, all senior students can receive comprehensive resources to plan for their future beyond CMS.

In all, senior students are provided with:

- at least 7 in-person interactions per year with their dedicated career counselling team
- detailed information about college, exams and streams combinations.
- online career library and blogs
- comprehensive career assessments and psychometric testing
- alumni database

Numerous CMS alumni are IAS, IPS, IFS, PSC etc. For a list of recent ones, see [Read more](#)
“Quality is never an accident, it is always the result of high intention, sincere effort, intelligent direction and skillful execution.” CMS, Quality Assurance and Innovations Department endeavours to facilitate the creation and sharing of new ideas to meet the aspirational needs of the new generation. More than ever, in the face of unprecedented changes taking place in the world, education must be visionary and future oriented and should provide learners with skills they need to succeed in this fast changing world.

By adopting distinctive measures like Fitzroy Phonics and Reading Skills Programme, TMS - Target Minimum Score of the Learners, inclusion of Higher Order Thinking Skills (HOTS) in assessments, helping to set up Professional Learning Communities (PLCs) and facilitating school review and evaluation in collaboration with Adhyayan we have tried to cater to all areas of child’s development and bring about qualitative change in the teaching learning process. Teachers are key in ensuring that students get requisite lessons that keep their minds ignited for seeking knowledge. We are conducting training programmes for teachers on a regular basis to stimulate innovations in teaching approaches and to facilitate the learning of appropriate pedagogical skills in the increasingly volatile 21st century classroom.
Out of the 5,964 CMS students who appeared for the ICSE & ISC 2019 Board Examinations, 2,940 (49.3%) secured aggregate marks between 90% and 99.75%.

In ICSE (Class X):
- 1 CMS student occupied the 2nd position nationally with 99.40% agg. mark
- 1 CMS student occupied the 3rd position nationally with 99.20% agg. mark
- At the state level, 1 CMS student obtained the 1st rank, 1 CMS student obtained the 2nd rank and 1 CMS student obtained the 3rd rank (i.e. 3 CMS students got the top 3 state ranks)

In ISC (Class XII):
- 1 CMS student grabbed the 2nd position nationally with 99.75% mark
- 9 CMS students grabbed the 3rd position nationally, each with 99.50% mark
- At the state level, 1 CMS student obtained the 1st rank, 8 CMS students got the 2nd rank and 9 CMS students obtained the 3rd rank (i.e. 18 CMS students got the top 3 state ranks)

CMS produced these glittering achievements and successes while being highly socially inclusive, with over 30% of its students being from SC, ST, OBC and Economically Weaker Sections.
Entrance to IITs, 2019: 62 CMS students were selected in IIT Advanced in 2019.

96 CMS Students qualified NEET-2019 (All India Medical Entrance Exam)

Govt. of India National Merit Scholarship: 83 CMS students won Rs 3 crore 32 Lakhs to pursue higher studies in Science in 2019. Each will get a total of Rs 4 Lakhs (Rs 80,000/- per year for five years) from the Department of Science and Technology, Government of India. They were in the National Top 1% Merit list of ISC 2019.

25 CMS Students qualified Common Law Admission Test (CLAT)

6 CMS students selected IAS (Indian Administrative Service) & 3 CMS students selected in PCS-J (Judicial Services) in 2019.

12 CMS students selected in the Kishor Vaigyanik Protsahan Yojna Scholarship (KVPY) 2019 of Rs 37 Lakh @ (Rs 5,000/- per month + Rs 20,000/- yearly grant for first 3 years and Rs 7,000/- per month + Rs 30,000/- yearly grant for the next 2 years). All 8 students are from Gomti Nagar Campus I and their names are: Shubh Agarwal, Utkarsh Gupta, Amol Mishra, Anshuman Singh, Divyansh Singh, Madhur Kumar, Anubhav Shukla and Anesh Srivastava.

81 CMS students got admission offers from top Universities abroad in 2019

CMS students scored brilliantly in the SAT exam, which is the gateway to admission in US universities. The SAT helps students to signal their ability in an international context and thus helps to secure admission in universities around the world. 36 of these 81 students got scholarship offers.

16 CMS students selected in SLAT (Symbiosis LAW Admission Test 2019)

6 CMS students who scored cent percent at IBT (International Benchmark Test) Conducted by Australian Council for Educational Research (ACER)

Sports

Sports enrich both the bodies and minds of our students, teaching them new physical skills as well as important life skills. Through sports, children learn how to be magnanimous in victory and gracious in defeat, the importance of practice, and how to be a successful member of a team.

Our experienced instructors and coaches provide rigorous training for all students, leading them to win competitions at every level, from the local to the international. CMS has invested in top-notch training facilities including gymnasiums, swimming pools, and astro turf fields. Additionally, CMS hosts international sporting competitions in which students can compete with and learn from students of other countries. These include EXSPO International (a multi-sporting event), ISCPL (International School Cricket Premier League), and Concorde (an international football competition).

At CMS, we have a range of sports available, with specialist coaching and facilities on site, including:
- Badminton
- Basketball
- Cricket
- Swimming
- Hockey
- Javelin
- Football
- Roller Skating
- Table Tennis
Lessons in self defense
Regular yoga classes
Burma Bridge activity
Sports keep our students fit in mind & body
Producing swimming champions
Preparing athletes
The Arts at CMS

To encourage music and dance, CMS has well-trained and experienced music and dance teachers at every campus (55 music teachers and 35 dance teachers). Children receive high quality training in classical music, and individual or group lessons in musical instruments such as the violin, guitar, synthesizer, and more.

Dance

In energizing dance classes, CMS students are taught various classical dances like Kathak and bharatnatyam, folk dance, as well as western genres like hip-hop, ballet, and jazz.

Singing

Students develop virtues of excellence, patience, and diligence in rigorous CMS singing classes. They will be encouraged to do their very best both through individual and group lessons and learn songs from a variety of genres and time periods to build up a diverse repertoire.

Drama

Theatre and drama classes boost confidence in students as they learn public speaking skills, as well as creativity as students innovatively think up ways to decorate sets, make costumes, and get into character.
Indian Classical Music

CMS students have the opportunity to take up group lessons to learn classical music instruments including the tabla and sitar. CMS functions provide a unique opportunity for these young musicians to show what they've learned to the Management of CMS, their teachers, and most importantly their eager parents who will be watching from the audience.

Western Classical Music

CMS has been a leader in India in Western Classical Music courses, providing training from highly skilled teachers from Georgia and training in the ABRSM (Associated Board of Royal School of Music) London certification. CMS had more Distinctions and Merits than any other institution in the whole of Uttar Pradesh.

The classes include Western Classical Singing, Western Classical violin, Music Theory and Piano. The trained students are eligible to apply for any international music grade exam like Trinity, ABRSM, RSL awards etc.

In the past two years, nearly 150 students and music teachers have appeared for the ABRSM and many of these who just began two years ago, have cleared the exams with top marks.

CMS organizes winter and summer western classical music workshops every year where students of different campuses go through intensive music course in theory, form, analysis and performing few pieces for 8 days. As a result of these intensive trainings, CMS now has a students’ four voice choir and a string orchestra.
The Junior Youth Empowerment Programme (JYEP) is an international programme adapted by CMS for the empowerment of its junior students (class 6-8). It provides a unique platform to nurture the capacities of junior youth, empowering them to fulfill their potential for initiating individual and social transformation. It enhances young people's powers of expression and develops their ability to work with peers in unity, think critically, analyze situations, make responsible choices, and engage in acts of service to their communities.

The programme trains volunteer students from the senior section (classes 9, 10 and 11) to become 'animators' (facilitators) for the junior youth in their own campus (classes 6, 7 and 8). Bonds of friendship and a group identity are formed as the junior youth and their animator go through this process together for three years.

Animators and junior youth first discuss the issues they see in their schools or communities, and then decide what kind of feasible service projects they can embark on, to improve the situation. The JYEP service component helps students to develop virtues and skills and to enhance their intellectual, social, emotional, artistic and moral capabilities.

The Virtues Project

Moral education has been a core part of the CMS philosophy on education since the very beginning, and CMS has sought to bring the most successful elements of moral education from around the world to its students. In the past year, CMS has adopted the globally acclaimed Virtues Project, a set of 5 strategies to be utilized in classrooms to ensure the moral development of children: speaking the language of virtues, recognizing teachable moments, honoring the spirit, companionsing, and setting clear boundaries. The Virtues Project began in Canada and has found success in over 100 countries, even being endorsed by the Dalai Lama and the United Nations. CMS is the first school in Lucknow to adopt the Virtues Project and has invested in it wholeheartedly, bringing in expert trainers from the United States for ongoing training and support of teachers. An inspiring transformation has been seen at CMS, in which students are being supported to develop their innate virtues such as generosity, determination, and joyfulness. CMS has led groundbreaking work with the Virtues Project which was featured in “The Times of India” in October 2019.
Peace Education

Students get hands-on learning on international relations, diplomacy, working of the United Nations and are thereby helped to see themselves both as citizens of India and also of the world. The whole world is their home and they are equipped with the attitude to work successfully in any country in the global labour market.

Child Well-being

We at CMS believe that wellbeing is about children being confident, healthy and happy. Children desire to be loved, valued, respected, cared for and included. We feel that wellbeing is also an important element of overall student success. Students cannot achieve academically if they feel unsafe and unhappy. They cannot be expected to reach their full potential if they have mental health issues and if we do not provide the support they need. And they cannot be their best if they are not motivated to adopt a healthy, active lifestyle, both in and outside of school.

CMS provides extensive counselling service to students and their families to ensure they are well taken care of to be their best.

- Individual Counselling
- Group Counselling
- Parental Counselling
- Family Counselling
- Training on Life Skills

Go Green Initiatives

Students of CMS are encouraged to recognize the challenges in the world that they live in, and be at the forefront of positive change to address the need of the hour. At present, environmental preservation is a critical part of CMS’s emphasis on values education, and each CMS campus has an Eco Club and dedicated Environment Coordinator. Students collaborate with top environmental organizations including the Centre for Environment Education, UP NEDA, and the Prithvi Foundation. Students research water, biodiversity, and methods for energy conservation. In addition, they engage in service projects such as tree plantations, organic farming, composting, public awareness campaigns, and cleanliness drives such as the Swachh Bharat Abhiyan.

CMS holds the International Environment Olympiad biannually, bringing students from all over the world to CMS in exploration of innovative ideas to protect the environment. Additionally, CMS pupils have won top awards related to energy conservation including the Wipro Earthian Award and the Paryavaran Mitra Puraskar.
To become citizen of the world, CMS students and teachers are encouraged to go beyond the classroom and venture abroad for international exchanges events, competitions, and olympiads. In the past year over 180 CMS students and staff travelled abroad for educational events.

**CMS Outreach Abroad**

**CMS delegations that went abroad in 2019-20**

38 CMS staff went to:
- Angola, Australia
- Egypt, Austria
- France, Hungary
- Japan, Mauritius
- Norway, South Africa
- South Korea, USA

23 CMS students went to CISV camps in:
- Norway, Australia
- Austria, Hungary
- France

113 CMS students went for other events to:
- Bangladesh, Bulgaria
- Canada, USA

A CMS delegation participated in South Africa to participating in an International Mathematics Competition (SAIMC) being held at Durban City, South Africa from 1 to 6 August, 2019.

A Delegation of CMS Mahanagar Campus participated in a CISV Youth Meeting held from 14 to 21 April in Rogaland, Norway.

A 66-member joint delegation of CMS attended the International Day of Yoga at UN Headquarters in New York on 21 June 2019. They also visited NASA in Florida and the Niagara Falls.

CMS Gornti Nagar Campus I delegation traveled to Australia for a month long Children’s International Summer Village Camp held from 26 December 2019 to 23 January 2020.
International Exposure at CMS

CISV Camps

CMS is also the host to the India National Chapter of CISV (Children’s International Summer Village Camps), an international students’ exchange programme headquartered in England. Since 1973, CMS has sent student delegations all over the world to participate in month-long CISV Camps and hosted the Indian chapter of CISV. CISV camps provide CMS students a unique educational experience, and they develop cross-cultural understanding and mutual respect.

Delegates at CISV Camp, CMS Kanpur Road

27 International Conferences at CMS

3,670 participants

from across the globe: Australia, Egypt, Austria, France, Hungary, Japan, Mauritius, Norway, South Africa, South Korea, USA, and more.

International Convention on Students’ Quality Circles from 27-30 November 2019

4th Biennial International Environment Olympiad from 12th to 15th December, 2019

Reflections - International Festival for History & Civics from 31 Aug to 3rd Sept 2019

8th Odyssey International 2019 (Literary Festival) from 21st to 24th August, 2019
Connecting with Parents

As parents, you are encouraged to be involved. CMS strives to make communication easy and to respond to your questions in a timely fashion, and makes information about your children and school policies readily available.

Parent-Teacher Meetings (PTM)

Events with Parents

Teacher-Guardian Home Visit

To strengthen the link between school and parents, CMS has been innovative in creating the “Teacher-Guardian Home Visit.” Once a year, teachers visit their students’ home to meet with parents. Parents are encouraged to provide open feedback to teachers as well as seek advice to ensure that their children achieve their full potential. Home Visits foster a strong bond between the school and home, as well as between teachers and their students.

Parents are invited to visit campuses for periodic parent-teacher meetings to discuss the education and welfare of their child.

Parents’ participation in CMS events brings the school and the home closer together, and parents are specially invited to an Annual Mothers Day Celebration, Annual Sports Days, Model Class Presentations, Open Days, and many other meaningful cultural presentations.

Parent App

CMS has released a new Parent App which provides parents real-time information relating to their child including attendance, transport information, academic reports, timetables, and direct communications from the school.
Empowering Society

Special initiatives by CMS for a safe and secure future for the world’s children

Inviting the World's Judiciary to CMS

International Conferences of Chief Justices on Article 51 of the Constitution of India for Uniting the World for Children through Enforceable World Law and Effective Global Governance

1299 Chief Justices, Judges and Heads of State/Government from 136 Countries have come to CMS during the past 20 International Conferences of Chief Justices of the World organised by CMS

Students' participation

Students of classes 8 to 11 of all CMS campuses participate in the Chief Justices’ conference each year. Firstly, students who volunteer for the Youth Leadership programme take part in orientation sessions, to prepare for their close engagement with World Leaders, Chief Justices and Judges, and present the Children’s Appeals. Secondly, students of classes 8 to 11 attend the plenary and parallel sessions of the conference, where they get a four-hour opportunity to hear the speakers, offer their perspectives on the conference themes, and ask the assembled senior world judiciary their searching, complex and sometimes discomfiting questions.

The enormity of the opportunity and the positive impact of such participation is incalculable, even though it is not immediately visible. Since students are intellectually engaged in discussion of contemporary world affairs in the presence of eminent international dignitaries and legal luminaries, they wish that their perspectives are valued, and they become aware of the importance of their concerns in the world, which boosts their self-worth, self-concept and confidence. That the opportunity is priceless is attested by discerning parents and students alike, not least because it makes children’s vision world-embracing.

World Unity Satsang

CMS organizes a weekly World Unity Congregation (Satsang) on unity of religions and world unity at the CMS Gomti Nagar Campus on Sundays. In these congregations, Dr Bharti Gandhi, Founder-Director of CMS, delivers talks on world unity. This weekly Satsang has been held continuously without a single break since the year 2000, and draws dedicated and enthusiastic participation from adults and children.

Dr Bharti Gandhi, Founder-Director of CMS speaking at the weekly World Unity Congregation

Spiritual Discourses

Spiritual Discourses by Dr Jagdish Gandhi

Educational talks of CMS Founder Manager for students, parents and society can be heard throughout the year. Dr Gandhi believes that school is a lighthouse of society and should provide guidance to children, parents and society, beyond academic guidance. His efforts in this regard have been widely applauded. Dr Gandhi has written 28 books.

Dr Jagdish Gandhi may be heard every day on the following TV channels:

CMS Films Division

City Montessori School has a full-fledged films division that produces meaningful educational documentaries and films with social messages that are telecast through various local, national and international educational channels. In 2009, CMS had launched its first International Children’s Film Festival (CMS-ICFF). The 12th edition of the festival, to inculcate good moral values and promote the school’s philosophy of ‘Jai Jagat’ (Hail the World) in over a lakh school children from over 500 schools across Lucknow all for free, is scheduled to take place from 15th to 23rd April, 2020.

CMS Community - FM Radio Stations

To communicate school’s vision among the larger community, CMS has FM Community Radio frequency at 90.4 MHz. CMS children and the members from the CMS adopted villages community get the opportunity to make radio programmes.

CMS has two educational FM community radio broadcasting stations. The range of transmission is 10 to 20 Kms from each station.

1. CMS Gomti Nagar Campus I Community Radio Station airs programmes daily in two shifts from 7.00 am to 11.00 am and 3.00 pm to 7.00 pm.
2. CMS Kanpur Road Campus Community Radio Station airs programmes daily in two shifts from 11.00 am to 3.00 pm and 7.00 am to 11.00 pm.
Empowering Teachers

Motivating and Rewarding Teachers

CMS is proud to support and empower all teachers, making them the best possible education for CMS students. Teachers are recognized with rewards and prizes for noble efforts, for example, the Best Teacher of the Year Award. Teachers are given generous cash prizes totalling approx Rs 1 Cr per year. Teachers are also given opportunities to travel abroad and within India to interact with teachers elsewhere at workshops and conferences to learn new skills. In 2019 several CMS teachers excelled at the CENTA teachers’ test.

Teacher Training

CMS emphasizes teachers’ training, and this year teachers had dedicated in-service training weeks during both June and January. We have a dedicated Teacher Training Centre at CMS Kanpur Road campus, as well as dedicated IT Training Centres at Gomti Nagar II and Station Road campuses, in which teachers and non-teaching staff regularly attend workshops and seminars to upgrade their skills and hone their talents. Professional development courses have been conducted for CMS Principals, middle-level leaders, librarians, subject-teachers, gardeners, junior engineers, electricians, caretakers, cleaners, clerks, and others.

e-Learning & IT Training

CMS has an e-Learning and IT Training Department and has become a proud leader in India in the field of integration of technology into classrooms. At present, CMS has 1,162 interactive white boards installed in classrooms, libraries, and labs across 18 campuses. In addition 20 interactive flat panels have recently been purchased in the CMS quest to remain abreast with cutting edge technology. The e-Learning Department has developed a syllabus for IT training of both teaching and non-teaching staff, by defining IT Training level-wise (with an introductory Level 1 for beginners and Level 2 for project-based learning). Since 2016 CMS has have been making voluntary participation more extensive and inclusive, through special initiatives such as fun contests for teachers to implement innovative practices, as well as the ‘CMS ERA’ programme in collaboration with the CMS Innovation Wing for teachers to engage in their own high-quality interactive whiteboard content development. For students, the e-Learning Department has introduced Google’s ‘Code to Learn’ programme, SCRATCH, as well as a number of advanced pilot projects including tablet-based maths learning and artificially intelligent adaptive learning systems, through which we can gather data and evidence regarding the potential benefits of using these new teaching methodologies in classrooms.
Top ISC Teachers

Ms Prerna Raj, English Teacher of CMS Gomti Nagar Campus II, was declared the Best ISC Teacher. Her students’ average mark was 86.18%.
